## HEALTHY LIVING MONTH

Visit Palisades on the Glen Retirement Residence this February and take part in our "Healthy Living Month"!

Palisades on the Glen is widely known as a caring independent-lifestyle retirement residence. Our management and staff care particularly about the health and well-being of the residents who make their home here — as well as that of our neighbours in the surrounding community. That's the reason we've named February 2012 "Healthy Living Month" and organized two special events that will take place on our beautiful premises. We welcome everyone to attend: visit Palisades on the Glen and learn how we're making healthy living our priority.

**Palisades Health Fair:** Imagine an event where the answers to all your varied health-related questions can be found in one location — instead of you having to seek them out, here, there and everywhere. That's what the Palisades Health Fair is all about: we're assembling our community partners in the relaxed and friendly environment of Palisades on the Glen to make it easy for attendees to gather information and educate themselves on a wide range of health-related topics.

**Healthy Living Day:** It's no secret that women over 55 can face particular and specific health challenges. At Palisades on the Glen, we understand that the simplest and most effective way to prevent or overcome these challenges is to arm yourself with information. With this in mind, we're proud to present — in partnership with Mississauga Sports Council — Healthy Living Day for women in this growing age-group.

**ALL THE DETAILS CAN BE FOUND IN THE ENCLOSED FLYERS!**
